Motor, Version 3

This category covers the complete E2 Type 12 Silver Series version three motor/pump assembly that includes the bearings, gaskets, separator, rotor, and stator.

Effective serial number **01452000** (rough estimate) with a start date of April 2009 (estimate) through **current production.**

NOTE: Motor version ranges are parts ranges, not machine ranges. A newer motor is a direct complete replacement for any earlier version in the same family (a D3 motor fits a D2), and the factory only sells the newest complete motor. Use the version that matches your serial number for individual parts; for a complete motor, order the newest version.
